## Found in the Best Cars

Lightning Motor Fuel is used by owners of the finest cars for the same reason that it is used by motorists of limited means-

Because it means less carbon, less trouble from spark plug fouling-

Because it can be depended upon to furnish power and speed at all times.

In short, because Lightning Motor Fuel is so wonderfully efficient it has changed the buying habits of thousands of motorists. They would not think of asking for "gas" today.

They specify "Lightning."
